Dr. Subramanian Swamy is an economist, former Central minister and visiting Harvard professor. He is also a great *Champion for Hindu Causes*. With the blessings of Swami Dayananda Saraswati and Kanchi Kamakoti, Dr. Swamy brilliantly argued in Supreme Court & successfully blocked the destruction of Rama Setu. He is the author of the book on 'RAMA SETU – Symbol of National Unity'.

Rama Sethu is sacred Symbol of one billion Hindus. Why is it then targeted for destruction in spite of 3.5 million signatures, protest by million people and pleas of several Hindu saints? With keen intellect, Dr. Swamy provides his analysis of the invisible forces that are targeting Hinduism and that destruction of Rama Sethu is symptomatic of the multi-dimensional siege faced by Hinduism from these forces. He gives account of history of Rama Sethu project, economic and ecological disaster entailed if it is implemented, gross corruption involved and how he convinced Supreme Court judges to block the destruction. He offers effective solutions to revive Hinduism.
